PROFILE

Final-year B.Tech AI/DS student passionate about building products end-to-end — from understanding users and mapping flows to designing interfaces and shipping working solutions. Experienced in UX research, product thinking, and front-end implementation through projects like WorrkFree (agile project management platform). Comfortable working across design, research, and product decisions. Looking for opportunities in UI/UX, product design, or product roles where I can learn and contribute to real products.

SKILLS

- **Design & Research:** Figma (flow mapping, wireframing), Canva, User Research, Product/UX Teardown, Prototyping
- **Front-End:** HTML, CSS, JavaScript — turning design decisions into working interfaces
- **Product & Collaboration:** Agile/Scrum, JIRA, Prompt Engineering, GitHub, Product Thinking
- **Soft Skills:** Problem Solving, Fast Learning, Communication, Team Collaboration, Adaptability

PROJECTS

WorrkFree *AI-Powered Agile Project Management Platform — End-to-End Product & UI Design | Apr 2026 – Jul 2026*

- Owned end-to-end product design: user flows, feature scope, and interface decisions on what to build and why
- Designed and built a Jira-inspired workspace with sprint planning, Kanban board, backlog, and real-time collaboration UI
- Used Google Gemini to auto-generate issue descriptions and sprint plans, streamlining the planning-to-board experience
- Took the interface from concept to live deployment, independently handling the full build and production setup

Swiggy Product Teardown *UX Research & Flow Mapping in Figma | May 2026*

- Conducted a structured PM-style teardown of Swiggy's core features, mapping UX gaps and user drop-off points
- Used Figma to map end-to-end user flows and pinpoint friction in the ordering journey
- Proposed a "Health Mode" feature concept for an unaddressed, fitness-conscious user segment
- Published findings on LinkedIn, generating 70+ impressions and recruiter profile visits on day one

Trust Dashboard *UX Design for Data Privacy — Hushh Hackathon | Mar 2026*

- Designed a data privacy dashboard UI surfacing how user data is accessed across apps and devices
- Designed real-time alert UX for suspicious data-sharing activity, enabling users to take immediate action
- Delivered a working prototype end-to-end under live hackathon time constraints

Front-End Social Media App *Mobile-First Responsive UI — HTML, CSS, JavaScript | 2024*

- Built a fully responsive social media interface following mobile-first design principles

EXPERIENCE

Graphic Designer Intern *SocialMM, Digital Marketing Startup — Chennai, Tamil Nadu (On-site) | Dec 2025 – Jan 2026*

- Delivered 10+ client design assets — logos, banners, and social media creatives — using Figma and Canva
- Completed 3+ client projects end-to-end within a 1-month internship period
- Worked directly with clients to translate requirements into visual designs
- Recognised by the Co-Founder for fast learning and reliable delivery in a startup environment

EDUCATION

B.Tech – Artificial Intelligence & Data Science, Dhanalakshmi Srinivasan University 2023 – 2027 | CGPA: 7.5

Higher Secondary (12th Grade), Sri Vivekananda Junior College 2023

CERTIFICATIONS

- SQL (Basic) Certificate — HackerRank, Credential ID: 9F80841F3644 (May 2026)
- Scrum Fundamentals Certified (SFC™) — SCRUMstudy (In Progress, May 2026)

ACHIEVEMENTS & ACTIVITIES

- National Idea Research (AICTE) — Participation Certificate; Hack-O-Verse 2024 & Smartathon — Active Participant
- Pitched a product idea at a Startup Pitch Event; completed ML, Python & Web Dev workshops
